£15,000 - Maxum 2000 SR3 2005 model - not commissioned until 2007

This Maxum 2000 SR3 is in excellent condition and very much younger than her year might suggest as she was not commissioned until 2007. With an overall length of 6.2m (20'4") and a beam of 2.44m (8'0") she is that much larger and more able to handle coastal conditions than many smaller entry level bow-riders.

With the MerCruiser 5.0MPI 260hp engine she also offers outstanding performance and, as it is the MPI model, she also offers remarkable economy.

This boat has also been dry stacked from new. (1877).
